FOR COMMISSIONER: DANIEL W. M'CURDY, of Clearfield.

FOR CORONER: GEORGE L. WAY, of Curwensville.

A bitter quarrel exists between Vallandigham and Pendleton, and in consequence, the Ohio Democracy are rent in twain.

A General Indian war is imminent. In case of hostilities, no doubt, the Government will adopt a vigorous policy in treatment of the savages.

Eric, Warren, Jefferson and Clearfield counties have already selected conferees favorable to Hon. G. W. Scofield. This will secure his re-nomination; and, as the district is Republican, will insure his re-election to Congress.

Opposition to the requirement of citizenship by the Chinese is opposition to the fundamental principles which underlie our Government, and as contrary to truth and right was the aggressive pro-slavery policy of the South.

The European complication remains the great enigma of the hour, and what will come of it remains to be seen. France, Prussia, and Spain seem equally determined, and if one of them does not back down, and that speedily, war is inevitable.

The Crawford county system of making nominations is fast falling into disrepute, on account of the vast frauds practiced under it. In one town, recently, nearly 600 votes were polled for a candidate, while the town did not contain over 100 voters. But "such is politics."

Despite the outrages and violence of the Ku Klux Democracy of North Carolina, the indications are that the State is still soundly Republican. The Raleigh Standard says: "There is every sign of victory. We shall carry the State once more by an overwhelming majority."

The London Spectator, in speaking of the naturalization laws of the United States makes a point which seems to us well taken. It is that we rob ourselves of one of the clearest attributes of a nation in conferring upon State courts the right to naturalize foreigners. The practice is, to say the least, anomalous, and out of it has sprung much of the abuse of the naturalization laws.

At a Democratic meeting in Fairfield county, Ohio, the other day, it was resolved that the war for the Union "was a partisan war for the spoils" and "a violation of the Constitution;" that the war debt "is a fraud upon the people," and that we are in favor of disowning the bonded debt, or, in other words, are in favor of repudiating it; and if paid, we are in favor of letting the abolition party and its negro allies pay it.

Some idea of the importance of the Pacific Railway can be gleaned from the following paragraph, which is now going the rounds of the press: A few days ago four hundred bags of English mail matter passed over the Pacific Railroad en route for Australia and the South Sea Islands. This is a practical acknowledgment that the route from England to Australia via New York and San Francisco is both shorter and safer than the Mediterranean, Suez Canal and Red Sea route.

The glorious results of the first fifteen months of President Grant's administration are thus briefly summed up by the Chicago Republican: "The redemption of the public debt \$105,000,000; continued peace with all mankind; and entangling alliances with none; a reduction of the expenses of every department; honest collection of the revenues; ousting and punishment of dishonest officials; improved public credit; improved finances; economy; rigid accountability on the part of officials; and general peace, quiet, and restored law and order in all parts of the Union."

The few Democrats (says an exchange) who yet remain in Congress have issued an "address" to their party. They say the issue is "whether we shall have a constitutional and honest government," or a "revolutionary, extravagant and wasteful partisan rule." That is certainly a fair statement of the precise question at issue. It is whether we shall have a continuance of the constitutional, economical and honest government which the Republicans have given the country, for ten years, now, or whether we shall return to the worst which the last Democratic President, Buchanan, gave us: "revolutionary," in breeding and arming a host of traitors; "extravagant and wasteful," in allowing the Interior Secretary to steal the Indian bonds, and his Treasury Secretary to squander the funds and leave the Government bankrupt? That? or this?

Our Nominees.

We place at the head of our columns, today, the names of the nominees of the Republican party, of this county, as selected by the County Convention which met in the Court House, on Friday, July 8th:

JOHN SWAN, Sr., our candidate for Sheriff, is well and favorably known as one of our best citizens and most successful business men—honest and competent. He will discharge the duties of the office, if elected, with fidelity, and to the entire satisfaction of the business community. We cheerfully commend him to the voters of the county.

JAMES GLENN, the nominee for County Commissioner, is a man of sound judgment, good business qualifications, and fully competent to discharge the important duties of the office for which he is named. Having lost a leg in the late war, whilst fighting for his country's flag, he is entitled to the sympathy and support of a patriotic and grateful people.

ROBERT MITCHELL, the candidate for Jury Commissioner, is generally known throughout the county as a man qualified for the position for which he is named, and hence needs no special commendation from us.

DAN W. M'CURDY, Esq., the nominee for District Attorney, is a young man of fine legal acquirements, good education and strict business habits. Should he be elected, the citizens of the county will have no cause to regret his elevation to the responsible position for which he is named.

JAMES HUGHES, the candidate for Auditor, is fully competent to discharge the duties of the office for which he is designated—a being a man of strict business habits and a good accountant.

GEORGE L. WAY, the nominee for Coroner, is well qualified to discharge the duties of that office should he be chosen to fill it. The ticket is a good one. The nominees are all men of character and standing in the community, and worthy the support of the people throughout the county.

Closing Up the Banks.

The N. Y. Herald, in a leading article on the Republican party, after referring to the mistaken idea of those who think the party is about to fall to pieces from disintegration, compared it to the Union army whose members would stroll from the ranks when there was no danger imminent; but the moment an enemy was announced, the whisper went along the lines to "close up," and as if by magic the boys in blue were at their posts prepared to meet and overthrow the nation's assailants. The Herald concludes its article in the following forcible sentences:

"The present administration has been charged by the country with a sacred trust—a legacy of the war. Its mission is to restore us to that happy condition we were in before the great necessity came—when the American people hardly knew what taxes were—when there was no national debt when the citizens of the United States were more comfortable and easy in their circumstances than the citizens of any other nation on the earth. Its mission is to reduce taxes, to pay the debt, to develop the resources of the nation, and in an administration thus entrusted with a great duty growing out of the war the Republican party has a bond of union only less potent than the war itself.

In the case of Cuba we saw the President declare what he conceived to be the only policy consistent with the performance of his duty to the country, and we saw the party, with only as many stragglers as a battle always causes, assent to his declaration and rally to support him in it. Every such contest consolidates a party, casts by a natural process those who cannot accept the will of a majority and gives the remainder greater strength, in virtue of greater unity of sentiment and purpose; and in such contests this party—the only possible party in our present condition, will move on, gaining power as it goes, to make its present purpose the issue and the triumph of 1872.

Naturalization.

The Democracy, says the Cincinnati Times, have sought to make a party question out of the attempt of Congress to place the naturalization of foreigners in the Federal Courts. The sole object is to prevent the infernal frauds that are perpetrated in New York city at every election. The Democracy seem to be opposed to any reform of abuses that will deprive the party of the advantage of race-bait at the polls. They know that it is the desire of honest men of both parties to have an honest election, and every mother's son of them knows that about one-third of the Democratic vote in that city is sheer scoundrelism. And yet they oppose a reform! They do so hoping to make party capital out of it. It would involve no limitation upon naturalization, except that the Federal Courts are not quite so convenient as State Courts. Had the State Courts, foreigners and their friends, been honest in it, this measure would not be demanded; but now there is no other way but to shift the business to courts that are not mere party engines, and it that will not serve the purpose, something else must be done. Look out, gentlemen!

How to Stop a Paper.

The following, from one of our exchanges, so fully and clearly expresses our views upon the subject that we copy it without comment:

"You have an undoubted right to stop a newspaper whenever you are disposed, upon payment of all arrearsages. Do not hesitate to do so on account of any 'tenderness of feeling' written on the margin, or have the paper returned to the editor. No gentleman ever stopped a paper in that way, no matter if his head is covered with gray hairs that should be honorable. If you do write a note to the editor like a man, saying so—and be sure that arrearsages are paid. This is the way to stop a newspaper."

The York True Democrat says: We are told that a few weeks ago, there was a child born in Pottstown, this county, with a head and face like a tame rabbit, with a rest of the body like a human being. The head of the child is covered with snow-white hair, and its eyes are a beautiful pink. It was living at last accounts.

Republican Convention.

The Republicans of Clearfield county met in Convention, in the Court House in Clearfield, on Friday, July 8th, pursuant to previous notice, for the purpose of nominating a county ticket, etc.

The Convention was organized by electing Arthur Bell, Esq., President; David Cathcart and Geo. B. Smith, Esq's., Vice Presidents; and S. J. Row, Secretary.

On motion, W. J. Hemphill, T. H. Murray and Wm. Radabaugh, Esq's., were appointed a committee on resolutions.

The Convention then proceeded to nominate candidates for the several county offices, whereupon

John Swan, Sr., of Jordan township was nominated for the office of Sheriff; James Glenn, of Ferguson township, for County Commissioner;

Robert Mitchell, of Clearfield Borough, for Jury Commissioner; Daniel W. McCurdy, Esq., of Clearfield, for District Attorney;

James Hughes, of Morris township, for County Auditor; and Geo. L. Way, of Curwensville Borough, for Coroner.

The committee on resolutions then offered the following:

Resolved, That we most heartily endorse and support the Administration of President Grant. In him we recognize the true friend of the people. At the close of the war he stood forth as the first man of the country; and his course, since he was chosen Chief Magistrate, has shown his eminent fitness for the position. With implicit confidence in his ability as a statesman, and his integrity of purpose as an honest man, we continue to trust him as the wise choice of a free people.

Resolved, That we recognize, in Hon. John W. Geary, a faithful and competent Governor, and in his administration of the laws, the true republican policy of the people.

Resolved, That we recognize in our member of Congress, Hon. Glenn W. Scofield, a faithful and honest representative—one who has filled the position, for almost eight years, to the entire satisfaction of the party that elected him. And has shown such ability in debate, and honesty of purpose in his every official act, that he now ranks high among the most talented of our Representatives in the National Congress.

Resolved, That we instruct our Congressional Conferees—this day appointed—to support Hon. G. W. Scofield, as our first and only choice for Congress; and that they be, and are hereby requested to use all fair and honorable means to secure his re-nomination.

Resolved, That we most heartily endorse the appointment of our fellow citizen, H. B. Swoope, Esq., as District Attorney for the Western District of Pennsylvania—knowing, as we do, that his eminent legal abilities amply fit him for the responsible duties of the position, we regard his appointment as a compliment well deserved. A brilliant future awaits him.

After the unanimous adoption of the report of the committee, the following was offered:

Resolved, That W. J. Hemphill, Jno. S. Radabaugh and Daniel Faust, Esq's., be the Congressional and Representative Conferees—with power to substitute—to meet like delegates from the other counties with which we are associated for the election of a member of Congress and a Representative in the State Legislature.

The Convention also occurred in the designation of Tuesday, August 23, as the time, and Ridgway as the place, for the meeting of the Conferees.

On motion, the Convention adjourned sine die.
